Annual Asbestos Notification

July 1, 2022

Inquiry Charter School
Belmont Charter High School
1301 Belmont Ave
Philadelphia, PA19104

Dear Families and Staffs:

In accordance with the Asbestos Hazard Emergency Response (AHERA), all staff members must be notified annually of the school's activities regarding Asbestos Containing Materials (ACM) located within Inquiry Charter School and Belmont Charter High School.

During the past year, two (2) periodic surveillances have been performed, the most recent inspections completed in May 2022. A periodic surveillance consists of an EPA/AHERA Licensed Asbestos Building Inspector visually inspecting all areas that contain Asbestos Building Materials. This inspection, in no way, poses any harm to the occupants of the building.

During the past 3 years, no asbestos abatement projects have been performed for the school district. Any abatement project will be performed in strict compliance with all Federal, State, and Local Regulations, and reports are on file at the main office of each school and at the Network Office. The Management Plan with the inspection reports is located in each main office of each school; master copies are located at the 1030 Belmont Ave main office. These reports are available for review upon request.

Thank you for your cooperation.

Theresa Doggett
Chief Operating Officer
